

# Brandon Township

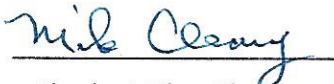

## Douglas County, Minnesota

### Driveway Approach & Culvert Policy

Property owners are responsible for building an approach to their property bordering a township road. Proposed driveways approach to Brandon Township roads must be approved by the Township prior to construction. Contact the Township Clerk to start the process.

The property owners are responsible for all costs associated with installation and maintenance. Culverts must be made of galvanize ribbed steel and at least 15 inches in diameter. Owners are not permitted to place any utility lines over or under township roads to their property unless the proper public utility company does the construction. Only one approach/driveway is permitted per resident.

Adopted June 15, 2020

  
Clerk, Mike Cleary

  
Chairman, Kerby Lund
